**CANCELLATION NOTICE**

LAPD 1200.15, "Delegation of Authority to Designate Employees to Perform Specific Financial Management Functions," is hereby canceled. Approved July 30, 1999, LAPD 1200.15 is a pre-full cost accounting policy directive. The September 2003 revision of the NASA Financial Management Manual, which addresses many of the full cost accounting methods that are currently being implemented, provides sufficient instruction, direction and authority for the Chief Financial Officer assigned to Langley Research Center to delegate authority for specific financial management functions. No Center specific policy is required.
